Reference: Contract DTFASO-06-C-00050 Administration Wing Mini-Mod Upgrade
(WORK STOPPAGE ISSUED BY GENERAL CONTRACTOR "MOLD AND FUGIS)

Mr. Wright,

It has just been brought to the attention of Peachtree Mechanical Inc., that there are issues at the FAA with Mold and Fungus. Peachtree Mechanical Inc. has not been made aware of any issues associated with Mold and Fungus. We have issued a "Work Stoppage" for all of our work forces, subcontractors, and vendors until further directed by the FAA that we are clear of this issue.

We take this as a very serious issue and concern, and must act to protect the well being and safety of all of our employees. As you know the project scope of our work includes the removal of duct work, Air Handlers, and other appurtenances. This work is the housing and manifesting areas that could possibly hold Mold and fungus. We have been directed to demolish said items above and we were never given any warning that the possibility of mold and fungus could be present. We have not been notified of the on going issues at the FAA by anyone.

Peachtree Mechanical Inc. would request that the FAA provide documentation to show that we are not being affected by this issue. Peachtree Mechanical Inc. request that the FAA support this issue and seek the services of an environmental professional. We would require that this serious issue be handled by an environmental specialist in the field of Mold and Fungus.

Please test our work areas and provide us with clearance to come back on site. Peachtree Mechanical Inc. request that the government concur and exercise a formal "Stop Work Order" notification. Please refer to Federal Acquisition Regulation 52.242-15 Stop Work Order.

Certified 8(a), Certified SEDB, Woman Owned Business

Peachtree Mechanical Inc. would like to continue with the project but we have to protect the well being of all of our employees and subcontractors as well. We would appreciate your response to this issue immediately.

If you have any questions or concerns pertaining to this issue please feel free to contact me at anytime.

Respectively,

Richard Denney
Executive VP
Peachtree Mechanical Inc.
